TIME TO CALL A HALT

Another Spanish Outrage Off Cuba's Coast.

AN AMERICAN SCHOONER SUNK.

Fired on by a Spanish Gunboat and Sent to the Bottom Carrying With Her a Crew of Sixteen Men—The Alliance Affair. Situation on the Island as Related by Two Refugees.

NEW YORK, March 19.—A special dispatch to a morning paper from Tampa, Fla., says: Passengers on the steamer which arrived from Havana brings news of reports in circulation there of further depredations by Spanish cruisers on American vessels along the Cuban coast.

The latest report is to the effect that the Spanish gunboat Arcedo fired into and sunk an American schooner off Puerto Padre. It is reported that the crew of the vessel, numbering 16 persons, perished with it.

It is not known whether the schooner had arms or carried an expedition for the Cubans. It was reported in Havana that the schooner had sailed from Key West. Inquiries, however, fail to show that any boat is missing or unreported, except those engaged in legitimate trade. Many sailed recently from West Indian ports with fruit cargoes.

Puerto Del Padre is a harbor on the northeast coast of Cuba, in latitude 21 deg. 17 min. north, longitude 76 deg. 42 min. west. It has a long and narrow entrance and affords excellent anchorage. It is not far from the place where the Spanish gunboat fired on the Alliance.

The Spanish cruiser Infanta Isabel, Captain Duenas, has sailed for Havana. It is believed she has withdrawn on account of the Alliance affair.

Senor Murruaga, the Spanish minister, declined to see callers or to receive any messages. In response to urgent requests for information on the Alliance affair and the answer of Spain a note from the minister was presented to all inquiries saying: "Excuse me, I have nothing further for publication."

Among the callers on the minister was Mr. Gray, former owner of the Alliance, but he, too, was unable to secure an interview. He next went to the state department. Mr. Gray was receiver of the American and Brazilian Steamship company, which operated the Alliance, and sold her to the present owners. He speaks in high terms of her capabilities.

Mr. Gray says that his present business with the Spanish minister, and the state department is of a private nature and does not concern the Alliance trouble. He is well acquainted with the coast trade between the United States, Cuba and South America, and does not believe our commercial interests will be seriously affected by the Cuban uprising or by the Alliance incident.

THE REPORT CONFIRMED.

A Dispatch From Key West Furnishes Further Details.

JACKSONVILLE, Fla., March 19.—A special to The Florida Citizen from Key West, Fla., says: A letter has been received here from Cuba stating that the Spanish gunboat Arcedo fired upon and sunk a supposed American schooner off Puerto Padre, Gibara, with 16 people aboard. It is rumored that the schooner was from Key West.

The schooner Golden Hind of Key West, which left here several weeks ago for a cargo of fruit with a crew of 16 men, had to pass Puerto Padre and may have been the vessel in question. The schooner Louise Hastings and Lillie also sailed for fruit several days ago but neither had 16 men in their crew.

The latest news from Cuba is that the government has captured a schooner loaded with arms and ammunition at Havana, which was to go to Santiago de Cuba. At Santa Clara several rifles were captured hidden away in the fields.

Dolores Aledo, a young Cuban girl, has been confined in prison for siding in the concealment of arms at San Nicolas street, Havana, several days ago. A lieutenant of volunteers, owner of the Cafe Ingles, was also jailed for his connection with this affair.

Not Heard of It in Washington.

WASHINGTON, March 19.—The state department has had no information from official sources touching the report that the Spanish cruiser Arcedo fired upon and sunk a small American schooner off the Cuban coast, and the report finds little credence here.

The naval register shows that the Arcedo is a small schooner-rigged iron gunboat, built in Spain in 1883, and of about nine knots' speed. It is not known whether or not she is in Cuban waters.

Other sources of information than the state department are likewise without any information on the matter, and are inclined to discredit it.

THE ALLIANCE AFFAIR.

Impenetrable Mystery Surrounds the Negotiations at the State Department.

WASHINGTON, March 19.—An impenetrable mystery surrounds the negotiations between the state department and the Spanish government on the Alliance affair. It seems to have been borne in upon the officials of the state department from the secretary down, that in the present excited state of public feeling in this country, better progress can be made toward a peaceable settlement of the incident by keeping various notes secret than by giving publicity to them before a conclusion has been reached.

Therefore the only response to definite inquiries that can be obtained is a positive refusal to discuss the subject in any aspect, and whether or not any action has yet been taken by the Spanish government in the direction of issuing instructions to its naval officers to refrain from further interference with American shipping will probably be learned first from Havana, from which point the orders will be distributed.

As the little gunboats are widely scattered along the Cuban coast and neighboring waters it will not be an easy task to communicate these orders speedily to all of them, so it is just possible that there may be some further incident similar to the Alliance affair before these orders are made known to the Spanish naval commanders.

It appears, in the light of events of this kind in the past, that the commanding officer of the smaller craft are not always of a high degree of intelligence or rank, for in cases where they have detained American ships they have found it necessary to hold the ships for several days in order that they might fall in with another larger cruiser with an officer aboard of sufficient intelligence to read and pass upon the adequacy of the captive's papers.

The general impression is that the Alliance incident has already passed the acute phase, and may be safely left to diplomatic adjustment in the ordinary course. The Spanish minister had in advance assured the state department that if Spain was in the wrong in the matter she would speedily and voluntarily make all proper reparation, and it is not doubted that if she has not already done so, Spain will soon instruct her naval officers to abstain from stopping American ships.

The only questions then left to be settled will be questions of fact as to the location of the Alliance when she was first signalled. The exact attitude toward her of the Spanish cruiser, and the question of international law as to the right of search inside of the marine league, the last only in case it is shown that the Alliance was within that limit.

This May Explain It.

NEW YORK, March 19.—A special cablegram to The World from Havana says: The commander of the Spanish cruiser Corne de Venadito reports having fired on a steamship flying the English flag. Two blank shots were fired first and then with balls. It is presumed here that the cruiser was mistaken in the nationality of the flag, and that the steamer fired upon was the Alliance.

SITUATION ON THE ISLAND.

Two Cuban Refugees Tell a Startling Story on Reaching New York.

NEW YORK, March 19.—The Ward line steamer Segura, which sailed from Havana March 15, arrived in port yesterday. Among the passengers were two Cubans who told a reporter many new facts in connection with the situation on the island, both as regards the Alliance affair and the revolt in progress there. Neither would allow their names to appear for prudential reasons.

The news of the firing on the Alliance by the Spanish gunboat had reached Havana before the departure of Segura. One of the passengers said he heard a Spanish official, high in authority in Havana, remark that it was just the chance that was wanted. They had been waiting for an excuse to fire on the Americans. He expressed the general feeling of all Spaniards in the matter. They believe that Americans are secretly aiding the rebels and are sending arms and ammunition from Florida.

The Cuban refugees said that the reports received in this country were colored by Spanish authorities and a censorship had been established on the press of Havana and newspapers were practically muzzled. The provinces engaged in the revolt are Manzanillo, Santiago de Cuba, Holguin, Guantamano and Venguetia. The rebel forces consist of about 6,000 men thoroughly familiar with the country and all hardy and determined.

The government forces consist of about 8,000 regulars, and 8,500 more are now en route from Spain on three vessels, which may reach the island at any time. There are about 5,000 volunteers who will take part for Spain, but the Cubans seemed to think little of them as fighters. He said they were principally clerks who were pressed into service and would have little heart in the fight.

The rebels were marching toward Puerto Principe, which was the seat of the 10 years' revolution. The residents of this province, which is one of the most densely populated on the island, are thought to be in sympathy with the rebels, and are expected to join hands with them when they reach the territory.

The insurrectionists are under the command of Generals Mayao and Guillermo Moncado. The Cubans say the rebels have things all their own way in the eastern part of the island, but they are committing no depredations. They frequently invade towns for supplies, but always pay for what they carry off.

Shortage in the Carson Mint.

CARSON, Nev., March 19.—Andrew Mason, superintendent of the New York assay office and government inspector, has been in town some time inspecting matters in the United States mint in this city. There are rumors of shortage which runs up to something over \$75,000. The shortage is said to be in the melter and refiners department.

Ended in a Draw.

BOSTON, March 19.—In the presence of 1,800 people at the Suffolk Athletic club last night, Jake Kilrain of Baltimore and Steve O'Donnell of Australia, Corbett's sparring partner, fought eight rounds, and at the close Referee Paist Shepard declared the contest a draw.

ENGLAND'S DEMANDS

Severe Ultimatum Submitted to Nicaragua.

BLUEFIELD AFFAIR THE CAUSE.

England's Hostile Attitude Toward Our Sister Republic Promises to Lead to Trouble of a Serious Nature—A Reflection Cast Upon American Citizens—But Two Things For the Administration.

MANAGUA, Nicaragua, March 19.—The British government, through its minister here, has submitted an ultimatum to Nicaragua. It demands a cash indemnity of £15,000 as part money to pay for the expulsion of Mr. Hatch, British consular agent at Bluefields during the troubles there last year, and also the appointment of a commission to adjudicate the demand sustained by the persons and property of British subjects who were expelled from the Mosquito reservation about the same time.

By the terms of the ultimatum Great Britain is to name one of the commissioners and Nicaragua another, and these two are to choose a third who shall not be a citizen of the United States. It was also made known that a British warship is now on her way to Nicaragua to enforce these demands, which must be complied with within seven weeks from the 25th of February last, the date of the ultimatum.

OUR GOVERNMENT INVOLVED.

It May Lead to International Complications With England.

WASHINGTON, March 19.—It is impossible to learn positively whether the state department has been fully advised officially of the severe demands made upon Nicaragua by Great Britain as reported in the cable dispatches dated from Managua, but from the fact that General Barrios, who was appointed a special ambassador by the Nicaraguan government to endeavor to settle their differences with Great Britain, has been in Washington for a week, and has paid several visits to the state department in company with Dr. Guzman, the resident Nicaraguan minister, it is assumed that our own government is fully posted in regard to the matter.

It can not be denied that this new incident, taken in connection with the hostile attitude of Great Britain toward our sister republic of Venezuela, promises to lead to trouble of a character much more serious than the little incident of the Alliance which has caused such a commotion. The administration evidently is about to be placed in a position where it must lay down a new construction of the Monroe doctrine or else abandon all concern in the future of the smaller republics of Central and South America.

In Venezuela it is alleged that the British are steadily extending their boundary line and encroaching upon Venezuelan territory in spite of the strong protests of the Venezuelan government, and the repeated urging of the United States that the question of the boundary should be settled by a resort to arbitration, not of a part of the question, excluding the main issue as desired by Great Britain, but by the submission of the whole issue.

But there are also questions of indemnity arising in Venezuela, growing out of claims preferred by other European nations, and there are indications noted by officials here to show that these are being pressed by concerted action. Many of the claims for indemnity grow out of the failure of these republics to meet their obligations to foreign debtors under the stress of hard times and the influence of the worldwide depression in trade. As the European governments appear to be moving to collect these individual debt on their own account, it is a question that the United States must speedily settle as to how far it is prepared to permit this process to go on.

As to Nicaragua, it is felt here that the terms of the British ultimatum are unduly severe. Besides there is a rather disagreeable reflection upon American citizens in the stipulation that none such shall serve on the commission to adjudicate the damage. On the whole it is more probable that the president will interpose to secure at least an amelioration of the terms of the ultimatum, representing the great hardship that it would work to Nicaragua under her present depressed condition of her finances to prefer a demand for so large an indemnity as \$75,000.

JUSTICE JACKSON WILL RESIGN.

He Will Retire From the Supreme Bench Unless His Health Improves.

WASHINGTON, March 19.—It is understood in the supreme court circle that Justice Howell E. Jackson, who is now at his home in Tennessee, will resign from the bench of the supreme court next fall, if his health does not permit him to resume active participation in the court after his summer vacation. Justice Jackson has been absent from Washington some months on account of illness which was thought by his friends to be consumption in an advanced stage, and although his recovery was for a time considered out of the question, he has recently greatly improved.

The movement in congress to pass a bill placing Justice Jackson on the retired list was based on the understanding that he would not be able to again take his seat with the court. His improvement during the past few weeks has led him to believe that he may return to work after a rest of a few months more, and should this hope fail

of fulfillment, it is said to be his intention to place his resignation in the hands of the president.

RIVALRY OF THE ASTORS.

W. W. and J. J. Each Determined to Have the Grandest Hotel.

NEW YORK, March 19.—William Waldorf Astor and John Jacob Astor have locked horns over which shall own the finest hotel in New York city, and as a result property in the neighborhood of the Waldorf hotel has increased in value to an amazing extent. John Jacob Astor purchased the buildings adjoining and to the north of the Hotel Waldorf and announced that he would build there a hotel that would be 100 feet deeper, several stories higher and in every way more magnificent than the Waldorf.

Saturday night it became known that the agents of William Waldorf had purchased several pieces of property adjoining the Waldorf on Thirty-third street, and that they had been trying to obtain the unexpired leases on the houses. In some instances it is reported that the prices offered were startling. Only two houses have not yet been purchased. It is William Waldorf Astor's intention to build an annex to the Waldorf, and to make it even finer and larger than the one projected by John Jacob. Money is no consideration, and his only desire is to be able to have the new Waldorf in perfect condition at the same time that John Jacob Astor's new hotel is opened to the public.

Lettercarrier Dismissed.

WASHINGTON, March 19.—Assistant Postmaster General Jones has ordered the dismissal of a lettercarrier at Youngstown, O. An inspector had made a report on the case, and the carrier was charged with conspiracy in trying to defeat the order of the postmaster general making regulations preventing overtime charges. It was learned that the Youngstown carrier had taken the advantage of leave of absence to go to Canton, and was about to perfect an organization of lettercarriers so that they would stand by each other and prevent the discharge of any man for any cause whatever. Mr. Jones says that combinations among employees of these kind will not be tolerated.

Well Poisoned by an Indian.

WICHITA, Kan., March 19.—Henry Cherry, his wife and two sons, Raymond, aged 10, and Henry, aged 3, were poisoned by drinking water from a well near their home, on North Fifth avenue, Sunday. It is believed that arsenic had been thrown into the well. Cherry and his wife may die. Their faces are frightfully swollen and blackened, and three doctors are working with them. The children will live. Suspicion points to an Indian named Summit as the perpetrator of the crime. Summit and Cherry both wanted to buy the same house some months ago, and when Cherry purchased it the Indian threatened that he would poison the whole family.

Murderer Confesses.

MILWAUKEE, March 19.—William Loeber, who had been held under suspicion in connection with the murder of Ferdinand Moritz, the Hebrew cattle dealer, whose body was found on the western outskirts of the city on Thursday last, made a confession Monday, but claims the shooting was accidental. The last bit of evidence which broke down the prisoner was the discovery of fragments of Loeber's wagon box, covered with blood and hair, in a pile of kindling wood in Loeber's barn. Loeber says he secured about \$15 from the body.

Ties Placed on the Track.

LEMAUS, Ia., March 19.—The Illinois Central fast mail east ran into a pile of ties placed on the track near Marcus with the evident intent of wrecking the train, which was going at a high rate of speed on a down grade. Most of the ties were knocked off the track and no injury resulted except a damaged pilot. The offenders were not caught. Many passengers' lives would certainly have been lost had the train left the track, as Whisky Slough bridge was only a few yards from where the obstruction was placed on the track.

Suicided After Living Ninety Years.

CHICAGO, March 19.—Mrs. Catherine Krupka, 90 years old, was found dead, hanging to a hinge in her room at 1023 Noble avenue yesterday. Mrs. Krupka, until recently, despite her great age, had retained her faculties to a marked degree, and when, a few weeks since, her eyesight and hearing began to fail, she threatened suicide. Despite the close watch kept by her relatives, she succeeded in ending her life, supposedly while insane from fear of becoming helpless.

Police Tragedy.

CHICAGO, March 19.—Edward Gorman, a Canadian, was fatally shot by Police Officer Mainstert Sunday at Fifty-ninth and Halstead streets. The officer was so brutally beaten that his condition is critical. Mainstert interfered in a quarrel between four men, who kicked him into insensibility. Before losing consciousness Mainstert fired two shots, one of which entered Gorman's body.

Waterspout in Alabama.

GADSDEN, Ala., March 19.—Further details of the waterspout on the Coosa river 30 miles north of here show that the damage was heavy. The river and creeks adjacent to it were overflowed for 40 miles, inundating lowlands, destroying crops and sweeping away houses. It is not yet known exactly how many lives were lost.

Conditions of the Treasury.

WASHINGTON, March 19.—Yesterday's statement of the condition of the treasury shows: Available cash balance, \$184,027,259; gold reserve, \$90,406,908.

NEW ORLEANS QUIET.

It First Looked as if There Would Be Trouble.

EGROES STOPPED FROM WORK.

White Men Claim the Right to Work on the Steamers—A Compromise Divides the Work Equally Between the Whites and Blacks—No Further Outbreak Is Looked For at Present.

NEW ORLEANS, March 19.—A gang of negro laborers who crossed the river yesterday morning to unload the steamer Etolia of Elder, Dempster & Company, were met on their arrival by a number of white men and told they would not be allowed to work and commanded to return to this side of the river at once. They reported to the agents of the line what had occurred.

Later a committee of three from the Screwmen's association at Jefferson came over to this side, called on the agent and applied for work on the steamer. Their grievance which caused the action of the morning was that labor was being imported from another parish to work on ships lying at the wharves in the parish of Jefferson. They have always considered that they had a lien on this work and always protested against the importation of labor, white or black.

The agent of the line warned the men that they would not be allowed to dictate who should be employed on the ships, and after a brief conference it was agreed that the work on the Etolia should be divided, the Jefferson parish men taking one-half and the negroes from this side the other. No further trouble is anticipated at that point.

Governor Foster, accompanied by General Fairies and other officers, visited the levees in the afternoon and inspected the troops on duty.

The whole river front presented a more decidedly lively appearance than at any time for the past week. Cotton is arriving freely, and the men are busy at work loading ships without molestation on the part of anyone. There is also a decided falling off in the number of loungers along the levee, and at the head of Jackson street, where there is generally a crowd of white men, that spot was nearly deserted. Even the presence of the military has ceased to attract any attention.

But if the number of white idlers had fallen off the number of negroes congregated on the levee seems to have increased. There are more idle negroes on the levee now than before the present troubles. At the uptown wharves the colored labor of every class, both union and nonunion men did not wait for the soldiers to put in an appearance before going to work yesterday morning. Promptly at 7 o'clock the men started to work and there were no late comers. Unlike the laborers uptown the men employed on the steamships Orion and Engineer, lying in front of the French market, would not go to work until the militia arrived.

INDIANA STATEHOUSE RIOTS.

Litigation Will Surely Follow That Midnight Affair.

INDIANAPOLIS, March 19.—At the end of the fifth day after the adjournment of the legislature all bills received by the governor at the close of the session must be returned to the office of the secretary of state to be filed.

During the riot on the closing night the custodian bill, which caused the trouble, disappeared. Governor Matthews could not return it to the secretary with the other bills, and in an official statement giving his account of the riot yesterday attempted to file his reasons with the Republican secretary. That official refused to accept it, fearing that it would affect litigation which will grow out of the complication. The statement was accompanied by the veto of the bill.

President Cleveland's Birthday.

WASHINGTON, March 19.—President Cleveland was 58 years old yesterday. There was, however, no special observance of the day at the White House, and the president kept closely at his desk as usual. Several congratulatory telegrams were received and several of his intimate friends called, while others sent their congratulations, accompanied by a basket of flowers. Aside from these little incidents the day was uneventful.

Self-Destruction.

SPRINGFIELD, O., March 19.—Mrs. Henry J. Ihrig suicided by drowning herself in Buck creek. It was her fourth attempt at self-destruction. Insanity, due to fearing her family would die of consumption, was the cause.

Life Insurance President Dead.

NEW YORK, March 19.—Colonel M. V. B. Edgerly, president of the Massachusetts Mutual Life Insurance company, died at the New Netherlands hotel yesterday.

An Engine Wrecked.

SPRINGFIELD, O., March 19.—Dan Devine, crazed, jumped on an engine Monday morning, opened the throttle, jumped, and the engine dashed into another, demolishing it.

An Engineer's Neck Broken.

WARREN, O., March 19.—At Niles yesterday morning, William Vaughn, an engineer at the new tin plant, fell from an elevator and broke his neck.

Chemicals Explode.

TUESDAY, MARCH 19, 1895.

Fair weather; winds shifting to easterly.

GENERAL P. W. HARDIN and Colonel C. M. Clay, Jr., have undoubtedly been reading the newspapers of the State and are profiting thereby. Both have come out in the last few days and expressed themselves as opposed now to "lugging the currency question into the present State campaign."

THE opponents of Colonel W. O. Bradley are industriously fanning the spark of discontent over the date of the Republican State convention in the hope of starting a blaze, says the Courier-Journal. A few of them will do some kicking now, but the Colonel knows they'll all toe the mark at the proper time and vote straight.

LUTTRELL VERSUS WELLS.

What the Court of Appeals Says in its Judgment Reversing the Case.

The Court of Appeals in reversing the above case, taken up from this county, says:

First—The will of Richard Wells, when considered as a whole, does not either expressly or by implication prohibit the sale of the property by order of the Chancellor for the purposes of reinvestment, it being the purpose of the testator in using certain language to merely emphasize the right of his son to the use, benefit and enjoyment of the property during his life, and not his purpose to prohibit a sale for reinvestment.

Second—By an amendment to the Code approved May 9, 1892, which was prior to the institution of this suit, it is provided that no bond shall be required in cases under section 491, of the Code where the court shall, by its Commissioner, retain the custody and control of the fund arising from the sale until reinvestment.

Third—Although the remainder may be contingent, yet, if the person in being in whom the remainder interest would have vested, if the contingency had happened before the commencement of the action, be properly before the court, a perfect title may be passed under a proceeding conforming to the provisions of section 491 of the Code and the other sections regulating such proceedings.

Fourth—Under section 696 of the Civil Code "every sale made under an order of court must be public, upon reasonable credits to be fixed by the court," and the court was wholly without authority to confer upon its Commissioner the power to sell the land privately or for cash, and such a sale is unauthorized by law and void.

"Keep A-go'in'."

The Walter A. Wood Mowing and Raping Machine Company had 300 machines on the steamer Longfellow that sank at Cincinnati a week or so ago. The shipment was for the South, and the company had extensively advertised the matter, and given dates when the boat would be at certain ports. Within twenty-four hours after the disaster the company had duplicated the shipment. In a circular to their local agents, Messrs. Thompson & McAttee, after telling of the above, they close with the following:

If you strike a thorn or rose,

Keep a-go'in'!

If it hails, or if it snows,

Keep a-go'in'!

'Taint no use to sit an' whine

When the fish ain't on your line;

Bait your hook and keep on tryin'!

Keep a-go'in'!

When the weather kills your crop,

Keep a-go'in'!

When you tumble from the top,

Keep a-go'in'!

S'pose you're out o' every dime?

Gittin' broke ain't any crime;

Tell the world you're feelin' prime!

Keep a-go'in'!

When it looks like all is up,

Keep a-go'in'!

Drain the sweetness from the cup,

Keep a-go'in'!

See the wild birds on the wing!

Hear the bells that sweetly ring!

When you feel line sighin'—sing!

Keep a-go'in'!

A PERSON with no appreciation for fun, the ludicrous and grotesque would have but little appreciation of the "Trolley System," but to those who enjoy a good, hearty, unceasing and prolonged laugh, it is a veritable feast, says an exchange. The fun began at the rising of the curtain, when John Hope, Jr., (Richard Garnella) the flower of the Hope family, began to play his pranks upon the unfortunate target of his arrows, spitballs and miscellaneous garbage. Timothy Tubbs, whose honor it was to introduce electricity as a motive power into the hitherto peaceful town of Utopia, and only ended in the last act with the explosion of twenty-five pounds of dynamite in the trolley car, and Johnie's dramatic descent from the realms above with the aid of a parachute. At the opera house here to-morrow night.

TOWNS AND CITIES.

They Are Liable for Injuries Resulting From Obstructions in the Streets.

The Court of Appeals in reversing the case of Fugate against the city of Somerset last week rendered the following opinion:

First—It is the duty of a city to keep its streets reasonably safe for public travel; and it is liable for injuries resulting from obstructions in the street of which it has had notice, or of which it may reasonably be presumed to have had notice from the length of time the obstruction has existed. And while a city may temporarily place obstructions on a street for the purpose of making repairs, yet this is permitted only as a matter of necessity and for only a reasonable time.

In this action against a city to recover for injuries to plaintiff resulting from his horse, which had become unmanageable, running against a pile of lumber which had been left in the street and turning his buggy over and throwing him out over an embankment, the court erred in giving a peremptory instruction for defendant, the testimony tending to show that the lumber had been placed in the street by direction of a member of the City Council, and that another of the Councilmen knew of the obstruction, and that the repairs for the purpose of which the lumber was placed in the street had been completed some time before the injury. Whether the street was so obstructed as to render it dangerous, whether plaintiff was injured by reason of the obstruction and whether plaintiff was himself guilty of contributory negligence were all questions for the jury.

Second—Whether the city was under obligation to erect a fence or other barrier along the embankment depends upon whether or not the street was reasonably safe for travel without this fence, and this is a question for the jury.

The Hypnotic Plea Didn't Go.

One of the ablest New York Judges was recently called upon to preside in a case in which a middle-aged husband brought suit against a once handsome wife from whom he had separated to recover \$150,000, which he said his wife had obtained from him by means of the mesmeric influence which she exerted over him. The wife did not deny having received the money, but she did disclaim all uncommon or hypnotic powers, and said that the only spell which she flung over her husband was the one which any handsome, fascinating woman may cast over an admiring spouse.

The lawyers contended that the man was bewitched, or, as they call it, hypnotized, and was completely under the power of the woman when he gave her the \$150,000. The Judge handed down a decision in favor of the woman. He maintained that the man may have been under a sort of spell, but declared that there is no hypnotic power which will make a man so feeble and so irresponsible mentally as to give away that much money.

THERE will be a memorial service in honor of Rev. John A. Broadus, D. D., at the First Baptist Church next Sunday night in which it is expected that the pastor, Rev. R. G. Patrick, will be assisted by visiting pastors.

THE society girls of Covington have organized "pan-cake" parties, says an exchange. They send invitations to their gentlemen friends, and when the evening of the party arrives the gentlemen find a number of the fair maids with sleeves rolled up and clad in long aprons, busily engaged in turning and cooking the savory cakes. Prizes are awarded to the young lady who can cook the best cake and also to the gentleman who manages to eat the most.

—Sharpsburg World: "Mrs. A. P. Jarvis returned to her home in Mason County Monday, after a visit of several weeks to her mother, Mrs. Miranda Fletcher."

THE revival at Aberdeen Baptist Church still continues, with great interest and a large attendance at each service. The ferryboat Laurance will run to-night, to accommodate the people of this city who wish to attend. The boat will make a trip after the services are over.

A SPECIAL claims that George Beatty, colored, of Ft. Spring, Fayette County, is the father of 36 living children by three wives, and only four or five of them by his first wife. All of his children live within a radius of a few miles from their father's house, and are all vigorous and hearty. Beatty is a small, wizened man, about 65 years of age, a brickmason, and works at his trade every day that he can get work to do.

THE Cincinnati Enquirer says: "David Abramowitz, only 13 years old, is a wonderful musical prodigy. The lad arrived in this city about 18 months ago from Russia, a perfect stranger and in destitute circumstances. His great musical talent for the violin was soon recognized by a few generous hearted citizens, who came to his assistance. The progress he is making in violin playing is almost beyond conception. Master David is a pupil of Prof. Jacob Bloom."

This young musician will be at the opera house here on March 27th.

SPEAKING of the temperature of Hot Springs, Va., yesterday, Assistant General Passenger Agent C. B. Ryan, of the C. and O., gave some comparative figures which are of interest. For the year ending May 31, 1894, the highest temperature at that resort was 89° and the lowest 7°. At Cincinnati for the same time the highest was 95° and the lowest 4° below zero, while at Hot Springs, Ark., the highest was 103° and the lowest 10° below. During June, July and August of last summer the highest temperature at Hot Springs, Va., 89°, lowest 33°; at Cincinnati the extremes were 96° and 46°, and at the Arkansas resort 107° and 45°. This speaks well for the evenness of temperature at the Virginia resort, which is becoming so popular.

THE HOUR HAS COME

Counters and shelves cleared for action. The first note of the Spring campaign is heard in the bustle of opening boxes of new fabrics—novel prettiness—fresh dainties—as exemplified in the countless pieces of Spring Goods on our counters. Selling starts briskly, with the handsomest patterns already feeling the salesmen's scissors.

The fashionable women had better bestir themselves while the choice, exclusive things are obtainable. Came in yesterday in several lines of newest style. These black crinkled Crepons are a fad in the larger cities and not half enough are imported, but we begin early, so have the fullest and best stock.

Woman-world has decided that nothing makes a natter, more serviceable or becoming gown for early Spring and Summer than Checks, and the designer has surpassed himself, for handsomer color combinations were never woven. Double width; all wool checks. Price, 25c. This is a few among many styles—25c. to \$1.00.

The season's sensation. We offer a superb stock for selection. None pass without stopping to admire. Every pattern new, and the choicest money can buy. Priced from 25 cents to \$1.00. If you want quality, style and low price in your spring gown, call upon us. Our line is incomparable.

TIERNEY AND JOHNSON

Gone to Join Their Companions. They'll Not Be So Anxious to Steal Rides Hereafter.

Michael Tierney and Jim Johnson, two of the quartette of young Cincinnatiats jailed here some days ago on a charge of breaking into a C. and O. freight car, were before Judge Hutchins yesterday under a writ of habeas corpus. The grounds on which the writ was applied for were, that the Police Court did not have jurisdiction of the case, and that the accused were therefore illegally restrained of their liberty. The writ was sustained by Judge Hutchins, who proceeded to a trial of the case, as an examining court, the hearing resulting in the dismissal of the warrant and the discharge of the accused.

Jack Kelley, another of the quartette, was discharged last Saturday by Squire Bramel, and Bernard McCann, the fourth member of the gang, executed bond yesterday and was released.

This crowd of youngsters started out from Cincinnati some days ago to beat their way to Pittsburg, according to their story, and their experience will likely teach them a good lesson. When they start on another "tour" they'll likely steer clear of freight trains and freight cars and take first-class passage. It will be cheaper and safer, and they'll not be so apt to land in jail.

Colonel Breckinridge's Lecture

Hon. W. C. P. Breckinridge delivered his lecture "The Problems of Today" at Washington Opera House last night. About one third of those who heard it were ladies, and while the audience was not as large as some of his friends had expected, it was the most attentive gathering probably ever in the house.

Colonel Breckinridge's lecture is one that the professional man, the business man, in fact every man and woman should hear. All could profit by listening to his views on "The Problems of To-day."

It is needless to add that the lecture was eloquently delivered and was interesting and entertaining throughout.

Want to Sell Meat in Maysville.

The big Armour Packing Company have written to parties interested in the big ice factory and cold storage plant soon to be erected near the depot, and want the new firm to handle the company's goods in Maysville on commission. The location of the ice factory will probably be decided on this week.

THE Bourbon News is authority for the statement that two chickens committed suicide in Paris last week. Another fowl, which was a silent spectator to the tragedy, seeing the suicide was a success, also tried it and died in the same way."

Of course these papers will exchange, showing that journalistic comity is superior to mere names. If Colorado shall send Pennsylvania a Kiss for a Kick there is no "kick" coming."

MR. JACOB RILEY has a copper cent coined by New Jersey in 1787. Very few of them were coined and they are now very rare. On one side is displayed a plow and hammer and horse's head and the date, while on the other are the words "Nova Cesarea" and "E Pluribus Unum," and a shield.

LOVEL, the leading grocer, has no competitor when it comes to low prices and quality of goods. His stock is always full, clean and new, the best the markets afford. His special cut-price system for cash buyers has proved very popular, and his sales have been unprecedented. THE postoffice authorities at Washington City have instructed the postmaster at Lexington to hold all mail directed to the Southern Mutual Investment Company of that city. This company is composed of some of the leading business men of Lexington, its attorneys being Commonwealth's Attorney Bronston and County Attorney Allen. The plan of investment is a combination of building and loan association and life insurance. One of the directors says the action of the postal authorities is the result of the work of life insurance men who are trying to crush the company by claiming it is engaged in the lottery business.

THE BIBLE IN WENLI.

Bishop Schereschewski's Task Is Finished at Last.

NEW YORK, March 19.—At the meeting of the board of managers of the Domestic and Foreign Missionary society of the Protestant Episcopal church last week, it was voted to make a grant for the publication of the Holy Scriptures into the classical Wenli language of China, which Bishop Samuel I. S. Schereschewski, late bishop to China, has just completed, after long years of preparation.

The work upon which Bishop Schereschewski has been engaged has attracted the attention of the church and scholars on both sides of the Atlantic and the publication of his translation of the Bible into the Wenli language is being awaited with interest. For many years Bishop Schereschewski was one of the missionaries of the Episcopal church in the Chinese empire and was made bishop of Shanghai in 1877.

The Wenli is the written, but unspoken language of China. It is understood by the Chinese in all parts of the empire, by the natives of Corea and many of the inhabitants of Japan.

One Killed, Another Shot.

NEW ORLEANS, March 19.—Yesterday afternoon an altercation took place between Lew Brown, colored, and Frank and Harry Pettingill, white, near the corner of Clinton and Custom House place. Frank Pettingill was shot and instantly killed, and Harry was shot through the body and probably fatally wounded by Brown. A crowd gathered and threatened to lynch Brown, but he was safely locked up.

Probably Only Skipped Out.

SANDUSKY, O., March 19.—From reports that reached here yesterday it is inferred that H. S. Reynolds, the missing poultry dealer at Carey, O., has not been murdered by robbers, but has simply shaken the dust from his feet and flown to a more congenial climate. He killed a chicken in his room, and scattered things with blood to give belief to the murder story.

Shot Through the Window.

GUTHRIE, O. T., March 19.—At Cleveland, J. E. Edwards insulted the wife of John Day, and Day thrashed him. Later Edwards fired a double-barreled shotgun through a window where Day and a man named Lucas were sitting, wounding both of them badly about the head and shoulders, Lucas probably fatally.

USED THE MAILS TO DEFRAUD.

Warren F. Thompson, Chicago's Matrimonial Agent Convicted.

CHICAGO, March 19.—Warren F. Thompson, the matrimonial agent, who claims to be able to supply wives of dazzling beauty and unlimited wealth, was convicted in the United States court here yesterday of using the mails to defraud. He is the publisher of the matrimonial paper "Heart and Hand," and got himself into trouble by advertising heiresses at 25 cents a piece, three for half a dollar.

Last January Thompson advertised to sell the addresses of six beautiful heiresses, some widows and some maidens at the above terms, and the prosecution alleges he has been receiving several bushels of mail a day since. His arrest and conviction yesterday resulted. Pending the hearing of a motion for a new trial, sentence was withheld.

EX-CONGRESSMAN TOWNSEND DEAD.

He Represented an Ohio District For Six Consecutive Years.

Miller received slight injuries. Fireman Majors was hurt internally, and brakeman Frank Lennox was instantly killed. Conductor Denison escaped without injury. Passenger trains were delayed some hours. The cause of the wreck can not be ascertained.

Railroad Company Wins.

COLUMBUS, O., March 19.—Judge Pugh yesterday in the common pleas court, in a case brought by citizens of Logan to prevent the Columbus,ocking Valley and Athens railroad from occupying a grant of the Hocking canal for road bed because Logan used the water for sprinkling, decided the plaintiff had no foothold. No single lessee, the court said, could stand against the great strides of commerce.

A. T. Fox and John Gilp delivered their tobacco last week, over 19,000 pounds, in Germantown at 10 cents a pound.

Quite a gay little party met last Thursday night at the palatial residence of Hon. A. P. Gooding and had an enjoyable time.

THE "COCHRAN PLAN."

Rectortville, March 16, 1895.—Editor Bulletin: I trust you will not cut off all questions and discussion as to the result and cost of the "Cochran" plan of maintaining free turnpikes in this county. I want to hear from the friends of this plan; for I do not see how anyone can expect a 10 cent levy to produce an amount equal to all of the tolls collected by the turnpike roads in Mason County. The net result of such a levy would be about \$9,000 or not more than the sum required to open the first toll gate on the Lexington road, which gives only five miles, leaving the other two hundred and fifty miles under gates. Only part of the roads and these the small ones have reported and we have \$12,000. What toll does the Lexington, Mt. Sterling, Germantown and Mt. Carmel roads each collect? The only way to reach a satisfactory conclusion is to have the fact and figures. If the tolls collected, as some claim, amount to \$40,000 or more, this requires a levy of 45 or 50 cents. I see no advantage in this over our present system. If there is any, will some one let us have the facts, so that we can see for ourselves what we are doing. FARMER.

Have you a baby

that is making you old before your time with worrying? Is it weak, delicate, puny? Are you fearful lest it be taken from you? Mother! Will you read this letter about

Brown's Iron Bitters

It is genuine—not paid for or even solicited—and the writer is the happiest woman in New Orleans.

Enclosed you will find a photograph of my youngest boy, Clarence. He was born about seven months; nothing cured him but Brown's Iron Bitters. He is now a strong, old, well-behaved boy! I cannot say too much in praise of Brown's Iron Bitters.

MRS. L. LEVERING.

This letter was written on July 25th, this year. Have you a delicate child? Life for many children in Brown's Iron Bitters!
